H Tech Set 330 & 400mm

Fabricated on site – and accepting a range of strut & box section sizes – the H Tech set is the most flexible choice on the market.

Key Features

- 50% Higher Coefficient of Friction; better surface to surface grip than rubber feet
- Maximum stability; EPDM mat conforms better to uneven surfaces than rubber
- Optimum weight distribution over whole foot print
- Fits 41 × 41mm strut, 40 × 38mm, 21 × 41mm (H Tech 330mm only)
- Strut fittings & bolts included
- 100% recycled glass filled nylon foot construction
- Optional angled mat accessory for use on uneven ground

Kit Includes

Foot with adhered mat	× 2
Bracket & fixings	× 1
